„e” NORMA
STANDARD
HOPMA

Dyrektywa 78/2009/EC określa wymagania jakie muszą spełniać bezpieczne rury montowane na samochodach poruszających się po drogach całej Europy - w tym też Polski. Jako jedyny polski producent potrafimy osiągnąć wystarczającą jakość by sprostać wymaganiom tej normy. Pamiętajmy, że w przypadku kolizji orurowanie zabezpiecza samochód i jednocześnie chroni pieszych przed urazami.

78/2009/EC directive specifies the demands that have to be met by pedestrian protection guard installed in cars in entire Europe, including Poland. As the exclusive Polish manufacturer, we can reach the sufficient quality to meet the demands posed by this standard. We need to remember that in case of collision the front guard system secures your car and protects pedestrians against injury.

Директива 78/2009/ЕС определяет требования, какие должны выполнять безопасные трубы на автомобилях, которые перемещаются по дорогам всей Европы – в том и Польши. Наша фирма является единственным польским производителем, осуществляющим требования этой директивы в области качества. Мы должны помнить, что современная установка навесного оборудования обеспечивает машину в такой же степени, как и пешеходов.
